

997 Turbo Optional Decklid Cutout Template

Use this template to enlarge the existing intake openings for increased airflow

The image shows a grey, thick-lined template for a decklid cutout on the driver side. It features a large, irregularly shaped opening with rounded corners and a small notch at the top center. The template is designed to be cut along its outer edge to enlarge an existing intake opening.

Driver Side

Align using existing intake opening outline.
Cut along outer edge.

The image shows a grey, thick-lined template for a decklid cutout on the passenger side. It features a large, irregularly shaped opening with rounded corners and a small notch at the top center. The template is designed to be cut along its outer edge to enlarge an existing intake opening.

Passenger Side

Align using existing intake opening outline.
Cut along outer edge.
